

USER PROFILE – Carlos Barrios

1. Identity

Full Name: Carlos Alberto Barrios Pérez

Preferred Name: Boss

Date of Birth: June 3, 1996

Age: 29

Nationality: Venezuelan

Profession: Industrial Engineer

Education:

- Industrial Engineering — Universidad Católica Andrés Bello (UCAB)
- MBA — EUDE Business School (Spain)

Carlos Barrios is an entrepreneurial engineer with strong interests in technology, artificial intelligence, fintech, automation, digital infrastructure and international business development.

2. Personality and Mindset

Carlos has a builder and systems-oriented mindset. He prefers practical execution, automation, scalable infrastructure and ownership of technology. He dislikes inefficient processes, manual repetitive work and dependency on expensive APIs.

3. Work Philosophy

Carlos approaches work as a system design problem.

Typical workflow:

1. Define the objective
2. Design the architecture
3. Build the MVP
4. Automate repetitive tasks
5. Integrate AI systems
6. Scale operations

4. AI Usage

AI is a core productivity tool in Carlos's workflow and is used as: engineering assistant, strategic advisor, software development partner, legal drafting assistant and automation architect.

5. Preferred AI Stack

Local LLMs: Qwen models, Llama variants, Ollama
Agent Frameworks: OpenClaw, Claude Code, Codex-based agents
Development Tools: Cursor, Visual Studio Code, GitHub

6. AI Infrastructure

Primary server infrastructure:
Oracle Cloud Free Tier VPS

Server Specifications

Shape: VM.Standard.A1.Flex
CPU: 4 OCPU
RAM: 24GB
Architecture: ARM (Ampere)
OS: Ubuntu 20.04
Region: Ashburn (IAD)

7. Bot Infrastructure

Telegram Bot: @SusanIA_Bot

Architecture:
Telegram → OpenClaw Agent → Ollama → Local LLM (Qwen)

8. Development Environment

Primary workstation: Windows laptop
Tools: PowerShell, SSH, VS Code, Cursor
Secure networking via Tailscale.

9. Business Philosophy

Carlos focuses on building real businesses with revenue potential that combine technology, finance, logistics and automation.

10. Main Companies

Incolors Group LLC – Corporate merchandising and promotional products (B2B).
InverCenter USA Inc – Procurement and logistics services.
InverCenter Payment Services – Fintech consulting and payment infrastructure advisory.

11. Fintech Interests

Cryptocurrency infrastructure, stablecoins, OTC trading, payment processing systems, KYC/AML frameworks and financial compliance.

12. E-commerce Strategy

Platforms: Amazon, Walmart, Etsy, Shopify

Models: Wholesale, Online Arbitrage, Private Label

Initial capital: \$5,000

Target niches: Supplements and personal care products.

13. Technical Skills

Software development, AI infrastructure, automation systems, cloud deployment and API integration.

Technologies: React, Node.js, TailwindCSS, Vite, FastAPI, Docker.

14. Web Development

Typical stack:

React

TailwindCSS

Vite

React Router

Netlify / Vercel

15. Hardware Interests

AI hardware, laptops, servers and 3D printing.

Device: BambuLab A1 3D printer.

16. Vehicles

Interest in automotive technology.

Vehicles referenced: Volkswagen Polo 2008 and Toyota Yaris 2008.

17. Languages

Spanish (native)

Learning English with goal of B2 level.

Study routine: approximately 3 hours per day.

18. Strategic Vision

Carlos aims to build global technology-driven businesses combining AI, automation, fintech and international commerce.
